## SHEET METAL AND FABRICATION EXCELLENCE

Mild Steel, Galvanised, Zintec, Stainless Steel, Aluminium,  
and Yellow Metals are just a few stocked metals

## OUR TEAM IS YOUR SOLUTION TO TOTAL MANUFACTURING

### PUNCHING

State of the art punching machinery  
0.5mm to 8mm thick with speed and  
reliability that is second to none.

We have a wide range of tools to suit  
some special and most standard jobs.

Specialised tools can be acquired at  
competitive rates to suit any requirements  
or priced into the contract in some cases.

### FORMING

Maximum length for forming is  
3000mm with our 100 ton CNC  
press brake. We operate multi  
axis CNC machines suitable for  
smaller parts, low or high  
volume work accommodated.

### QUALITY

Quality is of paramount importance to MH Engineering (midlands) Ltd and is the foundation  
that our business and reputation are built on. We work to a fully documented quality system  
following the edicts of ISO9002:2000 offering complete traceability and certification.

## LASER CUTTING & PROFILING

We are proud of our ability to offer a complete laser profiling and cutting package through computer aided design and prototyping to volume production. Many of our customers use just some of the facilities we offer and we are equally happy to handle small and large batch runs on CNC laser cutting and profiling machines.

## WELDING

We offer many types of welding:

SPOT WELDING

MIG WELDING

TIG WELDING

STUD WELDING (up to M12)

## POWDER COATING, ASSEMBLY AND DELIVERY

Powder coating is an advanced method of applying a decorative and protective finish to a wide range of materials and products that are used by both industries and consumers. We have a wide variety of colours available, please speak to one of our team with your specifications. We can assemble many types of product to give you the finished article you deserve, palletised or in cartons specifically to your requirements. We have our own transport for deliveries to guarantee that goods get there on time when you require them.

## BELOW ARE A FEW OF OUR MANUFACTURED PRODUCTS

Our success is based around **YOU**. Whatever your Sheet Metal Working requirements we are confident that we can help. If you are seeking one off prototype components or full scale production of complete assemblies MH Engineering can offer you the service that will enable you to fill the gap in your supply chain with a reliable, quality and cost conscious supplier.
